

The massive earthquake that struck central China on Monday, May 12, 2008, appears not to have affected many of our passengers. The 7.8-magnitude earthquake devastated a hilly region of small cities and towns in Sichuan and nearby provinces.

We are deeply saddened by this catastrophe and our hearts go out to all those involved.

Those people looking to connect with family members or friends traveling in China may call One Call International, our assistance company, at its **China Earthquake Emergency Hotline at 800-576-5172**. Or call One Call International collect at 603-328-1924. Callers should have the plan number, and if possible, the travelers' itinerary ready at the time of the call.
